

Subject: Publication agreement

I agree that the abstract/paper I submit (if accepted) will be considered for publication in the proceedings of ISRM 2023.

I warrant that the abstract/paper is original and that I'm the author of the work. To the extent the abstract/paper incorporates text passages, images, tables etc. from other authors, I have referenced it accordingly and obtained all necessary permissions to grant the license below.

I grant the Austrian Society for Geomechanics (www.oegg.at, Salzburg, Austria) all rights to publish the work in the ISRM 2023 proceedings and to reproduce the work and distribute it by all means and media, including without limitation in print and electronic forms.

The proceedings will be published in electronic form only (PDF format). The document will be publicly available for download (open access) on the congress homepage (www.ISRM2023.com). The International Society for Rock Mechanics and Rock Engineering (<https://isrm.net>, Lisbon, Portugal) will include the proceedings also in their Digital Library at onepetro.org.

It is understood that I will receive no monetary compensation for the publication of the work in the ISRM 2023 proceedings from the Austrian Society for Geomechanics, from the International Society for Rock Mechanics and Rock Engineering (ISRM), nor from the Society of Petroleum Engineers Inc. (SPE) which runs the OnePetro website.

I accept that this is a reviewed publication and I must not submit the same paper to another journal or conference for publication.

I agree that my submissions may be subject to minor editing in a style suitable for publication in the conference proceedings and in a form satisfactory to the Austrian Society for Geomechanics.

Finally, I confirm that I have the power and authority to agree to this document. For a jointly authored abstract/paper, I sign as authorized agent for the others.
